

Thessaloniki Java Meetup (Thursday 23/05/2024)

Who am I

- Nick Giantsidis
- Developer – Consultant @ EY
- www.linkedin.com/in/nickgiant/

Reasons - Objective

- Enables developers to create a web application with just java skills
 - Fair balance between business - open source as a project
 - Not well known as Javascript frameworks, but strong
- Swing and JavaFX skills can be used to create the UI of web applications

To trigger your curiosity and start experimenting with Vaadin

**We help developers
deliver amazing business
applications more quickly!**
